Jorgensen: Revenue Numbers Show Republicans Have "Overpromised and Underperformed"

MADISON – Assembly Democratic Caucus Chair and Representative Andy Jorgensen (D-Milton) today released a statement in reaction to a report from the non-partisan Legislative Fiscal Bureau which disappointingly showed no increase in state revenue and predicted reduced growth rates in the years ahead.

"For years, Republicans have rubberstamped big tax breaks to corporations, the same corporations now bankrolling Governor Scott Walker's presidential campaign.

"This isn't working for Wisconsin. Our public schools and lifeline programs like SeniorCare are in jeopardy, and the "winks and nods" Republican leaders have been giving folks on budget fixes may have meant nothing. The people of Wisconsin have every right to feel duped.

"Once again, Republicans have overpromised and underperformed."
